The General Studies Curriculum serves a two-fold function: (1) to enable students to explore the general areas of higher education and to help them to determine a major field of concentration; and (2) to serve as a curriculum which, through the wide selection of elective courses, can be adapted to satisfy specific requirements of a particular four-year college to which the student desires to transfer.

Successful completion of this program qualifies a student to apply for an Associate of Science degree in General Studies.

Note: Students must work closely with their advisor in selecting appropriate elective courses.

<sup>1</sup> Consult your advisor or Advising Center staff for appropriate courses.

<sup>2</sup> Courses must be completed from two different Social and Behavioral Science disciplines.

<sup>3</sup> Students transferring to many four-year colleges and universities will be required to complete two or more lab science to meet bachelor's degree requirements.

**NOTE:** All courses specifically identified by course number are graduation requirements for this program.
